

Our Vision

We envision the St Louis region committed to achieving zero health disparities through a community driven approach that yields health equity in all policy and outcomes.

Our Mission

The RHC will serve as a regional model for bi-directional relationship building and shared decision making that harnesses the power of systems and communities to foster accountability and improve equitable healthcare access and outcomes particularly for communities of color.

Who We Are

Formed in 2001, the St. Louis Regional Health Commission (RHC) is a collaborative effort of St. Louis City, St. Louis County, the state of Missouri, health providers, and community members to improve the health of uninsured and underinsured citizens in St. Louis City and County.

Our team is led by an appointed board of Commissioners and three peer-elected advisory boards of community leaders, health care providers, and patients. The RHC gathers input from these leaders on a monthly basis to advance the mission.

2022 STRATEGIC PRIORITIES

1

**Regional Communication and Coordination
Strategy to Execute Equity-Centered Agenda for
Health and Wellbeing**

2

**Shared Data Reporting Dashboard to Measure
Efforts to Achieve Zero Health Disparities and
Foster Accountability**

3

**Community Driven Policy Change for Health
Equity and Wellbeing**

4

**Increased Access and Choice for Under
Resourced Patients**

5

**Improved Workforce Wellness and Capacity to
Address Emerging Needs**

Getting Involved

and Staying Updated

ADVISORY BOARD MEETINGS

All RHC meetings are open to the public, and we invite you to get involved! Three advisory boards meet monthly to provide direct impact to the RHC's work. Members identify and provide feedback regarding important regional health issues, act as a sounding board for RHC initiatives, and serve as a vehicle for dissemination of information around important health issues to the broader St. Louis community. Contact Riisa Rawlins rrawlins@stlrhc.org for more information.

POLICY AND ADVOCACY

Advocacy – a tool for achieving policy and systemic change – is a key strategic priority of the RHC. Our advocacy efforts, which remain non-partisan, evidence-based, collaborative, and patient/person-centered, bolster our mission to improve access to health care, improve health outcomes, and eliminate health disparities.
